Access Panels

# Product Overview

**Trafalgar Access Panels** are manufactured in Australia and have been installed into residential and commercial buildings for over 70 years. Trafalgar specialise in manufacturing large custom size access panels and our extensive experience and knowledge ensures we can provide a solution for all your access needs.

APM – Double Door Metal Access Panel with flanged edge, piano hinge and square cam lock.

From our manufacturing facility in Sydney's west, Trafalgar can custom make non-rated access panels in standard single door and large double door configurations with varying hinge and lock options to meet architectural specifications.

When installed, Trafalgar Access panels sit flush with the surface leaving a neat opening around the perimeter.

Access panels are typically installed during construction, but they can also be retro-fitted when additional access is required.

Contact the Trafalgar Team today to discuss your specific requirements.
